

Northsun

Northsun

I am the Northsun in the night sky
I have come not only for you.
Come to me, rest with me
Rest in my hands, rest in my chest.
You and all, Welcome? well.. come.
I am the Northsun in the night sky.

I am the Northsun in the night sky
Like rain I clean and I feed
I am the Northsun in the night sky

I am the Northsun in the night sky
Like sun I warm and I spark
I am the Northsun in the night sky

I am the Northsun in the night sky
Like air I fill and I breathe
I am the Northsun in the night sky

I am the Northsun in the night sky
I am the southmoon hidden in daylight
