Northsun

Northsun

I am the Northsun in the nightsky
I have come not only for you.
Come to me, rest with me
Rest in my hands, rest in my chest.
You and all, Welcome?well..come.
I am the Northsun in the nightsky.

I am the Northsun in the nightsky Like rain I clean and I feed I am the Northsun in the nightsky

I am the Northsun in the nightsky Like sun I warm and I spark I am the Northsun in the nightsky

I am the Northsun in the nightsky Like air I fill and I breathe I am the Northsun in the nightsky

I am the Northsun in the nightsky
I am the southmoon hidden in daylight
